Think of it as a tag-team mode with Shantae's friends, where you need to use certain abilities to progress at a slower pace than the base game. Collecting gems to upgrade attacks is a nifty idea, but not only are the new collectables worth swiping since they give nothing more than an achievement, the difficulty is so irritating. Everyone shares the same health meter, and only one character can heal them. However, everyone has a different special meter. If you stumble into a boss battle without full-health, you're gonna struggle. It's linear, unlike Pirate Queen's Quest DLC, and it just isn't that funny.

Unpolished, uninteresting, and unfair. Don't bother.
